

The Stanley® FatMax™ Mobile Project Center is a versatile 2 in 1 product that easily transforms from an innovative work bench to a durable hand cart. It has been engineered for work around the home or on the job site. Designed to exceed user expectations, the FatMax™ Mobile Project Center has a work surface that supports 660 lbs and a scoop designed to carry 220 lbs. In addition, 3 electrical sockets and a cable holder have been added for convenience. When folded, the stable project center can easily be stored in tight spaces or in the back of a truck or van.
